File is a collection of records  
related to each other. The file size  
is limited by the size of memory and  
storage medium. There are two  
important features of file: 1. File  
Activity 2. File Volatility File  
activity specifies percent of actual  
records which proceed in a single  
run. File volatility addresses the  
properties of record changes. It

helps to increase the efficiency of
